

VPAT documentation for Power PDF in regards to ADA disability and section 508 compliance of the product

000021940 | Troubleshooting | Last updated 2026-09-04 | Power PDF

Information:

Tungsten Automation, like other software publishers, has the VPAT documentation available upon request.

Power PDF meets the ADA and section 508 requirements as part of our accessibility commitment to users of the product and meets the legal obligation under the regulations of organizations as well that deploy Power PDF for accessibility.

Ensure this documentation is saved and filed in your organization for the appropriate versions of Power PDF.

Documentation
