

Does Tungsten MarkView support EBS 12.2 Next Gen Tech Stack

000045913 | Troubleshooting | Last updated 2026-09-01 | MarkView

ISSUE

Does Tungsten MarkView support EBS 12.2 Next Gen Tech Stacks?

We saw that support for WebLogic 15.1 and JDK 17 is planned for 2027.1, is this planned also for 2027.1?

SOLUTION

While MarkView support for WebLogic 15.1 and JDK 17 is planned for 2027.1, it is important to note that MarkView and Oracle EBS run on separate technology stacks.

While there is an enhancement request and testing is underway for support EBS 12.2 Next Gen Tech Stacks, we currently do not support it, and it is not expected to be included in the initial 2027.1 release.

This article will be updated when support is added.
